

Advanced Placement (AP) Exams Satisfying Post-Secondary ELA and Math Competency Demonstrations for the Graduating Class of 2021 and Beyond

Recently, the Colorado State Board of Education (and subsequently the Adams 12 Board of Education) formally adopted a [menu](#) of college and career-ready demonstrations that students must use to show what they know or can do in order to graduate from high school, beginning with the graduating class of 2021. Students must demonstrate college or career readiness in English and math based on at least one measure.

One of the menu options is scoring a '2' or higher on a district-approved AP exam. Below is a table outlining the initial list of Adams 12 approved AP exams for demonstrating college or career readiness in both English and math. This list was crafted using information collected from peer districts, consultation from the district Director of Assessment and Accountability, and input and thinking from content coordinators, standing committee members, and teacher leaders across Adams 12.

As course offerings are dynamic, this list will be updated on an ongoing basis.
