Career Interest Profiler

STEP 1 Intro STEP 2 Profile Questions STEP 3 View Results

Introduction

You are about to begin the Career Interest Profiler, a tool that can help you discover the types of work activities and career interests that people do at their jobs.

When choosing your answers, think about whether you would like or dislike doing a particular work activity if you had a chance to do it. Try not to think about whether you have enough education or training to perform the activity.

This is not a test. There are no right or wrong answers. The more accurately you answer each question, though, the better your results will be. If you need to leave the profiler in the middle and return later, return to this page and complete all the answers in the page you are on and click the "Next" button. When you return to this section, you will pick up where you left off.

When you are ready to begin, please click the "Start" button below.
