The screenshot shows the Naviance Student interface. At the top, there's a navigation bar with 'Home', 'Courses', 'Colleges', 'Careers', and 'Abc'. Below this, a search bar contains the text 'Type a career'. A 'CLUSTER' button is visible. The main heading is 'Hospitality and Tourism' with a 'Favorite' icon. An 'Overview' section contains text: 'There are many challenging educational and training opportunities within the high-skilled world of Hospitality and Tourism. Learners need a solid background in math, science and technical skills. Education and training can be obtained in high schools, technical colleges/institutes and universities. Along the way, career guidance professionals assist learners in assessing their educational goals, interests, abilities and skills to facilitate a good match to the cluster's many pathway options. Learners participate in relevant educational opportunities framed in the context of the cluster. They gain knowledge and skills through coordinated workplace learning experiences such as site visits, job shadowing and internships. If they choose, they may achieve valuable skill certifications that lead to employment. Colleges and universities offer advanced degrees and industry certifications that prepare learners for professional and technical careers. The Hospitality and Tourism Cluster prepares learners for careers in the management, marketing and operations of restaurants and other food services, lodging, attractions, recreational events and travel-related services. Hospitality operations are located in communities throughout the world.'

Below the overview, a section titled 'This Cluster Contains the Following Pathways' lists four categories: 'Restaurants and Food/Beverage Services', 'Lodging', 'Travel and Tourism', and 'Recreation, Amusements and Attractions'.
